Baby Bear's Chair

Did you know?

Natural objects:

Man-made objects:

Key vocabulary

Function – How something works.

Man-made – Made by people.

Mould – To form different shapes out of soft, squishy materials.

Natural – Found in nature e.g. spider's web, sheep's wool.

Stable – Object does not easily topple over.

Stiff – A material or object that does not bend easily (e.g. wood).

Strong – Something that is not easily broken (e.g. wood, brick, building)

Structure – Something that has been made and put together and can usually stand on its own (e.g. a building, a bridge, a chair).

Test – To find out whether something works as it should.

Weak – Something that is easily broken (e.g. paper, egg shells).

Key Facts:

Often **structure** have a certain **function**, they are made to do something, e.g. Chairs are for sitting.

They should be **stable**, **strong** and comfortable.
Was baby bear's chair **stable** and **strong**?
