## What did the Greeks ever do for us?

The ancient Greeks believed 12 gods and goddesses lived on Mount Olympus. The Greeks prayed to them at home and in temples and ran sporting events and festivals in their honour. They believed that if something went wrong, the gods were unhappy with them. The characters, images and abilities of the Greek gods and goddesses have influenced modern-day movies, animations, books, comics and video games.

### Democracy

Athenian democracy was one of the first in the world. It was a direct democracy in which the citizens themselves voted for laws in the assembly. Modern Britain has a representative democracy where people elect a representative (Member of Parliament) to make decisions on their behalf. Citizens over 18 can vote in Britain; however, in ancient Athens, only adult males born in Athens could vote.

### Philosophy

Philosophy (meaning 'love of wisdom') was developed by the ancient Greeks. Famous philosophers such as Pythagoras, Socrates, Plato and Aristotle still influence our thinking today: Pythagoras created the first maths formula, Socrates developed the Socratic method used to discuss ideas, Plato's ideas on ethics are still debated today, and Aristotle laid the foundations for modern science.
